PROJECT PROPOSAL

Project Title: Student Project Management System (SPMS)
Author: Computer Science Department
Date: September 2026

1. Executive Summary & Objective:
The primary objective of the Student Project Management System (SPMS) is to provide a unified platform for und

2. Project Scope:
- Document Ingestion and Centralized Repository
- Interactive Sprint Planning and Task Board
- AI-Assisted Project Health Assessment
- Automated Blocker and Risk Detection

3. Technology Stack:
- Frontend: Streamlit and Python
- Database: ChromaDB Vector Store
- Machine Learning & Embeddings: Sentence Transformers (all-MiniLM-L6-v2)
- Language Model: Google Gemini API
- Core Language: Python 3.11

4. Key Project Deliverables:
- Deliverable 1: Document Ingestion Pipeline (PDF, DOCX, CSV, TXT)
- Deliverable 2: Grounded Vector Retrieval Architecture
- Deliverable 3: Interactive Project Health Dashboard
